DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-22, drawn to a stapler and other type of tool combination.

Group II, claim(s) 23-52, drawn to a stapler.

Group III, claim(s) 53-64, drawn to a stapler or punch combination.

Group IV, claim(s) 65-77, drawn to a punch.

2. The inventions listed as Groups I, II, III, IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: as in the grandparent application, the lack of unity is the same, e.g. that the special technical features are in Group I the combination of other tools with a stapler, in Group II the stapler construction per se, in Group III the combination of a stapler and a punch and in Group IV the structure of a punch per se.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James G. Smith whose telephone number is 703-308-1746. The examiner can normally be reached on M-Th (7:05- 4:35) Fri. off.
